DETAILED ACTION

1. Applicant's affirmed election of Group I invention, claims 1-15 and 22-24, is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)). Therefore, in view of lack of traversal to restriction requirement set forth from Response to Restriction Requirement, the restriction set forth by the examiner is deemed proper and is therefore made Final.

2. In view of amendment filed July 11, 2005, claim 2 has been cancelled. Claims 1, 3-33 are pending. Claims 7, 16-21, and 25-33 are drawn to non-elected subject matter. Claims 1, 3-15 and 22-24 are examined with merit.

3. In view of amendment filed July 11, 2005, the objection of claims 10 and 11 due to informalities is withdrawn.

Claim Objections

4. Claim 3 is objected for setting dependency onto itself. Appropriate correction is required.

Claim Rejections - 35 USC § 102

5. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim Rejections - 35 USC § 103

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claims 1, 3-6, 8-10, 12-15, and 22-24 are rejected under 35 U.S.C. 102(b) as anticipated by or, in the alternative, under 35 U.S.C. 103(a) as obvious over Levy (US Pat. 3,875,090) for the reasons adequately set forth from paragraph 4 of non-final office action of April 7, 2004.

Applicant's arguments filed July 11, 2005 have been fully considered but they are not persuasive. Applicants argue that the composition of Levy relates to a two part composition while applicants' claimed composition is a one part primer composition.

Art Unit: 1713

However, applicants must recognize that the claims as written are silent on the requirement that the composition must be a one-part composition. As long as the composition of Levy comprises an active hydrogen from the partially hydrolyzed vinyl chloride-vinyl acetate copolymer, the composition of Levy would be considered substantially identical to the composition as claimed.

Regarding the claimed "primer" feature, it is merely a functional language that does not lend itself to patentability.

Regarding applicants' argument that Levy does not possess the claimed Tg requirement, however, applicants must recognize that in view of the substantially identical composition as claimed and the composition disclosed in Levy, the examiner has a reasonable basis to set forth a 102-3 rejection, especially when applicants' compositional claims are very broad.

8. Claim 11 is rejected under 35 U.S.C. 103(a) as being unpatentable over Levy (US Pat. 3,875,090) for the reasons adequately set forth from paragraph 5 of non-final office action of April 7, 2004 and paragraph 7 of instant office action.

Conclusion

9. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
